## DIFFERENTIATORS

- SECRET Facility Clearance Holder
- STARS III GSA GWAC HOLDER
- Comprehensive Recruitment
- Surge Staffing Flexibility
- Extensive Training Program
- Six Sigma Master Black Belt
- Engineering Award Winner

## CORE COMPETENCIES

- Cyber Security / Cyber Readiness / Cyber Security Compliance
- Bespoke, Hosting & Emerging Technology Solutions / Road Maps
- Enterprise-Wide Resource Planning Systems (ERPS)
- Big Data Analytics / Data Science and Artificial Intelligence / Pattern Recognition / Building and Applying Computational Research Models
- Integrated Logistics Support / Inventory Management / Inventory Modeling / Supply Chain & Blockchain Modeling / Internet of Things Solutions (IoT)
- Financial Cost Management / Working Capital Management / Vendor Credit Modeling / Planning / Budgeting and Forecasting / Accounts Receivable & Payable Modeling
- Operations Management / Operations Research / Decision Support / Optimization Modeling / Simulation Modeling / Scenario Modeling / Work-Flow Modeling
- Obsolescence Management / DMSMS / Engineering Services Support / Reverse Engineering / Prototyping / Additive Manufacturing / Engineering Design / Technical Data Package Design / Test Engineering / Reliability Engineering / Computerized Maintenance Management (CMM) / Software Modeling / Metal and Steel Manufacturing
- Program Management Office (PMO) Support
- System Safety / Issue Evaluation / Issue Resolution
- Medical Support Services and Staffing

## CYBER SECURITY BRIEF

Enterprise Security Solutions Information Security is paramount to protecting the confidentiality, integrity and availability of information. MBDM Inc has security expertise in all security disciplines and uses the methodologies outlined in the National Institutes of Standards and Technology (NIST) to frame and conduct all security activities. MBDM Inc has vast experience in audit, assessment and independent verification and validation (IV&V).

Our security team members have over 20 years of security expertise from Policy and Procedures to technical assessment and implementation. MBDM Inc personnel have been preparing Certification and Accreditation (C&A) packages and providing Security consulting since 1990. Regardless of the methodology needed for an assessment, such as ISO, COBIT, or NIST, we can provide engagement expertise using certified and credentialed experts.

MBDM, Inc has worked with many federal agencies and commercial companies to ensure that their security goals are being met. Whether it is requirements definition, installation, product configuration and/or enterprise deployment of security technologies, MBDM Inc has the right personnel at an acceptable price point to strengthen the security of your business.

MBDM Inc can assist with the purchase, licensing, deployment, and management of technologies such as Firewalls, Switches/Routers, Unified Threat Management Devices (UTM), Data Loss Prevention (DLP), Content Accelerators, Web Content Filtering, Physical Access Control Systems, IP Video Surveillance Systems, Intrusion Detection Systems, Intercom Systems, Fire Alarm Systems, and Perimeter Protection Systems.

- Internet of Things Solutions (IoT)
- Software Performance Engineering Solutions
- Software Architecture Solutions
- Artificial Intelligence Solutions
- Enterprise-wide Helpdesk Solutions
- Metal, Steel and Full Part Design and Manufacturing

## EMERGING TECHNOLOGIES

What is MBDM's Blockchain Transparent Supply (BTS)?

With the accelerated growth in global sourcing, supply chains today are becoming increasingly more complex and vulnerable to unforeseen shocks, interruptions and discontinuities. Transparency is limited as goods move from vendors to customers, and transactions are often still paper based.

In virtually any industry, blockchain can transform the supply chain by providing a trusted and controlled way to share data for near real-time visibility. MBDM's Blockchain Transparent Supply allows companies to build their own blockchain-enabled collaboration and data-sharing ecosystem with their supply chain partners – to the benefit of all.

MBDM is not tied to any specific vendor which allows us to offer unbiased opinions on the best solutions for our clients. With Transparent Supply, visionary companies are putting blockchain to work on the most challenging problems
